NetAthlon® Rowing 1.0 —Virtual Athletic training Software for Indoor Rowing!

NetAthlon® Rowing 1.0 uses leading-edge technology to create an immersive virtual reality environment for both the avid and casual rowing fitness enthusiasts. In this software package are three exciting 3-D rowing course; Carnegie Lake, Oxford vs Cambridge, and Salt River. Also included is the UltraCoach® fitness data management program as well as Web Racing® untility for the ultimate online interactivity.

For additional fun and chanllenges, three additional courses anre available for purchase. These new coursescan be downloaded and previewed by registered NetAthlon® software owners BEFORE purchase. Visit our website at www.riderunrow.com to preview and order these new courses

Carnegie Lake

This beautiful fantasy venue includes a large lake with plenty of room for other virtual rowers on or off the Internet.

Oxford vs Cambridge

You are on the Thames and rowing where these two great institutions have done battle for decades.

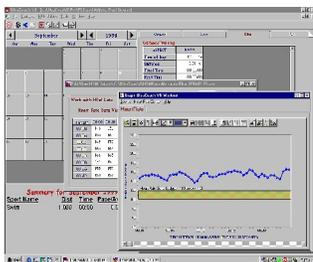

Salt River

This fantasy rowing course takes you down a canyon with steep walls and lots of distractions.

Head of the Charles River

This 2.9 miles section of the Charles River has been accurately reproduced with key bridges, boathouses, and landmarks. Outstanding realism adds to the rowing experience.

UltraCoach®, is our comprehensive fitness data management system, makes athletic training easier and more efficient by simplifying the collection, recording, and analysis of fitness and performance data. UltraCoach® automates the collection of training data by offering direct download compatibility with a wide array of heart watches and performance measurement devices. Using Artificial Intelligence systems, UltraCoach® integrates the user's historical performance data with future goals to create optimal workout routines.
